Dear Valued Clients:

Re: COVID-19

Small, medium, and large businesses are the backbone of our local communities and our Canadian economy. As the COVID-19 situation continues to evolve, we want you to know that we have plans in place to be here for you and your business when you need us most and to help you manage through any service transaction related to your compressed air needs during these unprecedented times.

We're ready to serve your compressed air needs in a range of convenient ways and through efficient measures, including, but not limited to:

- Planned preventative maintenance
- Planned repairs and machine overhauls
- Unplanned emergency repairs and breakdowns
- Sales of new equipment and parts

Currently, our entire staff is fully employed and at work every day and we are running "business as usual". Please check our website for regular updates to this notice. In the meantime, we wish you and your colleagues and families safety and health as we all ride this out together.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Wharton".

David Wharton
President / CEO
